Export Dealer Price List

February 1, 2013

CONFIDENTIAL

How to Order

By E-Mail: We recommend email when possible. Email allows for quicker processing and also ensures accuracy of your order. Please email your order to acortorreal@acroprint.com or export@acroprint.com

By Fax: Our fax number is 919-872-2336. You may fax us your orders 24 hours a day.

What is Needed? Please include the following information with all orders:

Account Number, Company Name, Billing Address, including City, State and Zip.

Ship To Address (if different than above)

Your Name, Telephone Number including Area Code, Email address

Your Purchase Order Number

Specify a carrier, otherwise we will attempt to ship in the most economical way

Include any special instructions

Item, Model or Part Number, Quantity and Cost

Standard Terms & Conditions, Shipping & Handling: All prices are for standard items, 120VAC/60 Hz.

An additional charge will be assessed for any voltage other than the standard 120VAC/60Hz.

Terms will be prepaid by either wire transfer or credit card; MasterCard, Visa, American Express (must be approved by export billing department).

Shipments are FOB our plant Raleigh NC 27616 USA or shipping point.

If open terms are granted, past due accounts will be charged a 1.5% monthly service charge.

Minimum bill is $50.00/minimum credit card purchase is $10.00

Return Policy

In order to return a product purchased directly from Acroprint Time Recorder Company, one must first obtain a Return Material Authorization (RMA) by contacting Acroprint within 30 days of product purchase. Customer will be required to furnish proof of purchase.

If the item was purchased from one of Acroprint's resellers/dealers then the item must be returned to that reseller/dealer. No RMA can be granted by Acroprint for products purchased from a reseller/dealer.

Returned items must be complete with all original accessories, cables, attachments, manuals, badges, etc.; no refund will be given for those missing components. Use the original box for shipping and make sure that the RMA number is printed clearly on the box.

Customer will be responsible for all freight charges on original invoice on non-defective or user damaged items along with a minimum restocking fee of 15%. All special build orders and opened/used software are not eligible for return.   Customer will be responsible for any duties for return and may be billed back the duties if they are assessed to Acroprint courier account.

Dealer Price List

Dates: The date printed on the front of the price schedule indicates the date the price schedule takes precedence over any previous price schedules.

Notification: Prices are subject to change at any time. Price schedules will be updated regularly and posted at www.acroprintdealers.com to provide notification of current price levels. Registered Dealers on Acroprint's Dealer Website will be notified by email when a new price list has been published.

Responsibility: It is the responsibility of the purchaser to be aware of current pricing before submitting an order.

Pricing:

List Prices are the retail value of the products and apply to customers who do not qualify as dealers

Discount Pricing is available to qualified Acroprint Dealers based on the total quantity of time recorders, time stamps, time and attendance terminals and systems ordered. To receive the discounts, orders must be on a single invoice. Qualifying items can be mixed or matched to reach the total quantity. Price discounts are provided for orders for the following ranges: 1-4; 5-9; 10-14; 15+ units. Example: Order "2" ETC's + "4" 125NR4's + "6" ES700's for a total of "12" qualified purchases and receive the quantity price break for 10-14 units.

Large Order Discounts for orders more than 100 of the same model may be eligible for price discounts, subject to approval by the appropriate account manager. MAPP pricing may apply to selected SKUs.

Minimum Advertised Price Policy (MAPP)
Minimum Advertised Pricing Policy (MAPP) is the lowest price that Acroprint dealers are permitted to use in advertising Acroprint products to prospective customers. MAPP pricing applies to dealer websites, marketing materials, promotions, etc. Acroprint reserves the right to withhold product shipment, discounts and other support services if dealer (and dealer customers) do not comply with MAPP pricing requirements.

Table of Contents

Models 125, BP125 & 150 are the original Acroprint Time Recorders. These machines were developed to withstand harsh environments and hundreds of print registrations per day. They carry a lifetime typewheel guarantee, and 1-year warranty for the rest of the materials. These rugged, dependable workhorses are suitable for any size business in any environment. Each model is suitable for time and attendance tracking, job costing, time and date recording and many other applications allowing them to use all standard time cards. Automatic ribbon feed and reverse insures a long ribbon life. Models come with a large, easy-to-read analog clock face and a tough, rust-resistant case. Month wheel needs to be manually advanced. There are five standard 120VAC, 60Hz right-hand print (English) typewheel configurations stocked for both the Model 125 and 150, allowing us to ship them the same day order is placed (same day shipping ends at 2PM EST). All other models require 10-14 days for build time. Made in the USA.

Brief description of Model identification for Models 125, BP125 & 150

> Example: 125AR3
> First characters are numeric identifying which clock (either 125, BP125 or 150)
> Second character is alpha identifying what configuration of wheels are wanted on the clock (see descriptions below)
> Third character is either a (R) or (L) identifying if it is a Right-hand or Left-hand margin print
> Fourth character is numeric identifying how many wheels are on the clock

The following are wheel options and configurations for Models 125, BP125 & 150

NOTE
A and N Models the PM hours are indicated by dash under the hour **(M 1 15)**
Models N, Q, R month and date wheels are manually advanced

Document control stamps were developed to withstand harsh environments and hundreds of print registrations per day. These durable stamps are used by businesses worldwide and are suitable for most business environment. A reliable, quality-designed motor provides the highest accuracy. Electronically controlled printing assures clean instant registration. Inserting a document into one of these heavy-duty time stamps activates the sturdy automatic print mechanism, allowing convenient one-handed operation. Precision typewheels deliver a sharp clean imprint. These stamps provide an efficient, cost-effective way to register year, month, date and time on important documents such as incoming mail, purchase orders and shipping/receiving documents. There are two standard models that are stocked, Model ET and ETC (120V / 60Hz), allowing us to ship them same day of order. All other models require 10-14 days for build time. All units are rust and corrosion resistant and are made in the USA.

Stocked models:

Atomic Time Clocks

TIME CLOCK & TIME STAMP
Model ES700

Our multifunctional ES700 and ES900 clocks feature: Atomic, automatic time synchronization providing accurate time; Font size adjustment, decrease/increase font size dependent on user's document or time card; LCD light, makes time card alignment easy and consistent; 120V/240V switching power supply adapts to different voltages throughout the world. These machines can be used to support time and attendance, job costing, and/or document control. Designed for a professional office environment. Set it once and forget it. The built-in perpetual calendar automatically advances the date including Daylight Saving Time, while the internal battery backup keeps the clock on time, even during power outages. Provides automatic or manual print operation on left or right hand time cards — or on any document. Over 150 print configurations are available: selectable hour format (12 or 24) and choice of standard minutes, tenths, twentieths or hundredths and even seconds. Machine also offers thirteen preset messages (RCVD, SENT, IN, OUT, CFMD, FILED, PAID, USED, FAXED, VOID, ORGIN, APR'D, CMPL'D) in either English, Spanish, French or Portuguese.

TIME CLOCK, TIME STAMP & NUMBERING MACHINE
Model ES900

Same great features as the ES700 with the addition of the I-MARK (*) which identifies early or late punches which makes auditing time cards easier and quicker for more accurate payrolls. This machine can be set up to use signal control with an internal device or it can work with an external signal. Item can be password protected and uses standard time cards.

TOTALIZING PAYROLL RECORDER
Model ES1000

Our powerful Atomic ES1000 totals hours (including overtime totals) for up to 100 employees, with automatic break time deductions. No need to spend time calculating hours by hand — employee hours are totaled automatically. Break time is automatically deducted and two-color printing makes early and late punches easy to identify. ES1000 can be setup for either a weekly, bi-weekly, semi-monthly, or monthly pay period, or you can choose a job-costing option. This flexible clock can handle calculations using either exact or rounded time, and offers three language options: English, Spanish or French. When you choose the bi-weekly pay period, the clock prints the first week on the front of the time card and the second week on the back — saving you money on time cards. The ES1000 is always on time, thanks to its atomic accuracy and internal battery backup. The ES1000 automatically forwards the month and year as needed and adjusts for Daylight Saving Time. With the optional Ni-Cd battery pack, the time clock remains fully functional (up to 200 punches) even when the power is out! This full-featured totalizing time clock requires ES1010 time cards, and is designed for a professional office environment. Clock offers 120V/240V switching power supply adapts to different voltages throughout the world.

C-72 Watchman Clock

The C-72 guard clock assures security personnel make their appointed rounds at prescribed times and they check all the necessary areas. Each clock supports up to 30 stations, and the key print mechanism records each key station location and time. The C-72 provides a tamper-proof record of patrol. It has a secure double casing lock to protect against tampering, and records each time the case is opened. The long-life precision quartz movement records patrol times accurately, while the clock face display is easy to read. Security guards can patrol without interruption over a long holiday weekend, thanks to the clock's 72-hour disk.

Watchman and Guard Tour Systems

ARES WATCHMAN SYSTEMS

These lightweight yet durable tracking systems ensure your personnel are making their rounds as scheduled. It's so easy — simply touch the handy M6000 recorder to the recording station "iButton" and it records the location, date, and time. Ideal for guards and other security personnel, hospital or nursing home staff, cleaning crews — any situation where you need to be able to verify when your personnel have visited specific locations.

Pendulum is a simple to use yet powerful Time and Attendance solution that allows you to automate your company's Time and Attendance tracking. What sets Pendulum apart from other Time and Attendance products is that it is a truly expandable system as your company grows so does the system. Administrators simply log on to the system to run reports, make corrections, and send Time Card Reports via email. Data collection devices include data terminals using magnetic stripe, bar code or biometric technology using hand geometry scanners. Pendulum software collects these transactions and your pay rules are applied automatically, consistently and impartially. With the Pendulum Time and Attendance Solution you will know exactly where your employee's time and your dollars are spent. Eliminate Payday Panic by removing human errors from your payroll. Accurately report employee's hours and dramatically reduce the amount of time spent preparing payroll. Pendulum is now compatible with Windows 7 and 64 bit operating systems; for a complete and current listing please visit www.acroprint.com.

PENDULUM UPGRADES

Item	Part No.	Description	List	Dealer
Upgrade User	08-0140-072	ATR20/20 or ATR9800 **Upgrade** to Pendulum Build 32 Time and Attendance Software, one concurrent user of the database USB Key needed for Pendulum Build 32, add'l charge of $300 ***End User Training Must be purchased 99-0104-001***	$199.00	149.00
Upgrade User	08-0140-073	Upgrade to Pendulum 5 Users T & A software for Windows ***End User Training Must be purchased 99-0104-001***	*Contact Factory*	
Upgrade User	08-0140-074	Upgrade to Pendulum 10 Users T & A software for Windows ***End User Training Must be purchased 99-0104-001***	*Contact Factory*	
Upgrade User	08-0140-075	Upgrade to Pendulum 15 Users T & A software for Windows ***End User Training Must be purchased 99-0104-001***	*Contact Factory*	
Upgrade User	08-0140-076	Upgrade to Pendulum 25 Users T & A software for Windows ***End User Training Must be purchased 99-0104-001***	*Contact Factory*	
Upgrade User	08-0142-000	Pendulum Software Build 32 Upgrade to work with Windows 7 and 64 Bit Operating Systems. Serial number required. ***Installation charges may apply***	*Contact Factory*	

PENDULUM MODULES/SUPPORT

Item	Part No.	Description	List	Dealer
Job Costing	08-0140-077	Module allows the system four levels of data collection including Department, Job, Step and Operation *Support agreement with Job Costing Module would be $799	$499.00	375.00
Signal Control	08-0140-078	Module allows the system to ring horns or bells at preset times and days of the week via an externally connected relay box; Signal 1 entry, 7 times a week - 48 max times	$159.00	119.00
Access Control	08-0140-079	Module allows daily access granted or denied based on the access level provided	$159.00	119.00
Auto Poll/ Reporting	08-0140-080	Module allows scheduled polling, reports to be printed	$159.00	119.00
Lockout	08-0140-081	Module allows the system to control un-authorized overtime, and/or works with the Access Control Module to control un-authorized access to an area	$159.00	119.00
Input Validation	08-0140-082	Module works only with Job Costing Module allowing the system to validate Jobs entered at the terminal	$159.00	119.00
Messaging	08-0140-083	Module allows the system to send Employees a message at the terminal and/or when use with Auto poll/Reporting Module hours worked can be messaged to employees	$159.00	119.00
Email	08-0140-084	Module allows the system to run reports and send them to managers, supervisors and/or employees when used with Auto poll/Reporting Module reports can be sent automatically via email	$199.00	149.00

ACROPRINT DATA COLLECTION TERMINAL

Acroprint Data Collection Terminal is a unit with an impact resistant charcoal gray ABS plastic case, comes standard with a 2 line by 20 character backlit blue LCD (alphanumeric) and 16 button full travel keypad; Memory: Flash 1MB, SRAM 512K, FRAM 128K, 128K RAM battery back up memory and calendar; Parallel port for printing and DIN input port for wands, bells and access control. Terminal Includes: Power transformer, hardware installation manual, wall mounting kit, supervisor and configuration badges Media Input Options: Integral keypad, Magnetic stripe reader (ABAII), Bar code reader (visible/infrared), External barcode reader, Pen wand, Proximity badge reader (125kHz RFID or HID Proximity Reader 26 Bit), and/or Integrated fingerprint reader Communication options: RS232 (Standard), RS485 2 wire single terminal or multi-dropped protocols (LAN), internal 56K-baud modem, or Ethernet/Internet TCPIP (RJ45), 10/100 BaseT.

Communication Options	Description	List	1 - 4	5 - 9	10 - 14	15+
RS232/RS485						
	Magnetic Stripe Reader, RS232 & RS485 Communications	$800.00	438.00	412.00	386.00	360.00
	Visible Bar Code Reader, RS232 & RS485 Communications	$965.00	535.00	501.00	467.00	433.00
	Infrared Bar Code Reader, RS232 & RS485 Communications *Build to order with a five day turnaround*	$965.00	535.00	501.00	467.00	433.00
Internal Modem						
	Magnetic Stripe Reader, RS232 & Internal Modem Comm.	$900.00	495.00	465.00	435.00	405.00
	Visible Bar Code Reader, RS232 & Internal Modem Comm. *Build to order with a five day turnaround*	$1,040.00	580.00	543.00	507.00	470.00
	Infrared Bar Code Reader, RS232 & Internal Modem Comm. *Build to order with a five day turnaround*	$1,040.00	580.00	543.00	507.00	470.00
Ethernet						
	Magnetic Stripe Reader, RS232 & Ethernet Communications	$1,133.00	668.00	615.00	563.00	510.00
	Visible Bar Code Reader, RS232 & Ethernet Communications	$1,200.00	721.00	665.00	610.00	555.00
	Infrared Bar Code Reader, RS232 & Ethernet Communications	$1,200.00	721.00	665.00	610.00	555.00

*For additional terminal configurations, please contact Acroprint Time Recorder Co for availability, part numbers & pricing

**Acroprint offers the tools and support to integrate Acroprint Data Collection Terminals with third party applications. Please contact Acroprint to discuss your project application and implementation options.

For ADCT	25-0126-000	HID Proximity Reader (factory installed)	$275.00	157.00
Units ONLY	60-0136-000	Memory Expansion to 256K	$75.00	35.00
Badge Racks				
12 Pkt	81-0116-003	(2) 12 Pkt White Plastic Racks (13.75" X 3.9125" X 0.625")	$32.00	20.00
40 Pkt	81-0117-000	Gray Plastic Rack (22.625" X 5.0" X 8.125")	$40.00	27.50

Eliminate the need for badges and time cards with the HandPunch® terminals. These terminals bring the convenience and security of biometric technology to time and attendance tracking. Now featuring BioCote® anti-microbial technology on the HandPunch platen. HandPunch technology uses field-proven hand geometry biometrics — recognition based on the size and shape of the hand. The system does not capture fingerprints or palm prints. Hand geometry is highly accurate, and is generally not affected by rings, small adhesive bandages, false fingernails and the like. Green and red lights notify the employee of the status of each punch. HandPunch Terminals are powered by Acroprint's software solutions: timeQplus; Pendulum; or AcroTime.

Time & Attendance Automated Solutions

AcroTime, Web Hosted Solution

Punch in and out via the Internet. Access reports and data easily anytime/anywhere. AcroTime resides in a remote data center where the software is stored and protected. Your customers do not need to worry about installing or managing software – we do it for them! Employees punch in and out via web browser, telephone, smart phone application or time clock terminal. Time clock terminal options: timeQplus Proximity (TQ600P); Biometric (TQ600B); Barcode (TQ600BC); Magnetic Stripe (TQ600M); HandPunch 1000E and HandPunch 3000E.   Customer can mix and match terminal options as needed for their company. Customer has the option to rent or purchase hardware. All hardware usage requires a middleware installation (cost is $75 per device). This solution accommodates an unlimited number of employees, supervisors and administrators. 30-day free trial - full function, no limits with basic set up (hardware not included in trial). Web software requires a monthly subscription. Subscription cost includes: 24x7x365 system monitoring, 800 toll free and email support Monday thru Friday 8AM to 5PM EST.

Model	Description	List*
AcroTime Time & Attendance Standard Edition	Supports an unlimited number of employees. AcroTime Standard is designed for cost-conscious businesses that need quick and reliable employee time and attendance tracking.	**$1.75 per employee/per month** **Minimum charge of $35.00/per month** **$75 Activation Fee** **$75/hr Additional Training & Configuration**
AcroTime Time & Attendance Platinum Edition	Offers all the benefits of AcroTime Standard, plus job costing, employee self-service and benefit accruals, scheduling, additional reports, and expanded payroll rules and configurations. AcroTime Platinum is an affordable option for companies that need a robust, full-featured time and attendance option. Mobile Application now available for Platinum only.	**$3.50 per employee/per month** **Minimum charge of $50.00/per month** **$125 Activation Fee** **$125/hr Additional Training & Configuration**
AcroTime HR Management Standard Edition	AcroTime Web HR Management will automate and streamline your Human Resources. This solution fully integrates with AcroTime Time & Attendance and will help gain control over human resource administration.
